

2011 Hunting Access Guide

Valid only for the 2011 hunting season

Hunters Welcome

Regions 1, 2, 3, 4, 5

NOTICE: Due to extensive flooding in 2011, many roads, including county roads and main travel routes, were damaged. Some roads may still be closed during hunting season. When planning a hunt, if unsure, we suggest contacting the appropriate land management agency or county office to determine road status in the area you plan to hunt. Contact information for counties can be found in the Montana Directory of Maps at <http://fwp.mt.gov/hunting/hunterAccess/toolkit.html> and land management agency contact information can be found elsewhere in this Hunting Access Guide.

ABOUT THE PROGRAM....

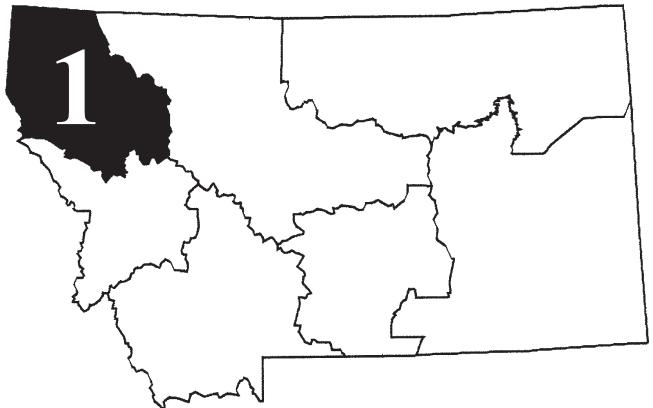

BLOCK MANAGEMENT provides managed public hunting free of charge on private and isolated public land enrolled through cooperative agreements between Fish, Wildlife, & Parks (FWP), private landowners, and public land management agencies.

- **Landowners do not forfeit any private property rights** by enrolling land, including the right to deny access for cause and the right to enforce ranch rules;
- Every Block Management Area (BMA) has **rules specific to that BMA**. It is the hunter's responsibility to know the rules for a BMA being hunted;
- **Hunters with special needs** are encouraged to contact the regional FWP office to determine if opportunities exist to meet specific needs;
- Hunters should **sign permission slips only for the actual days of hunting**. Signing for additional days costs program dollars that could be used to enroll other BMA properties;
- Hunters should **cancel reservations** if unable to hunt on the reserved day. Failure to cancel reservations may result in cancellation of future BMA privileges;
- **Hunter behavior** determines whether or not landowners participate in the program. Courteous, legal, and ethical behavior keeps gates open. Please report any violations.
- There are **two types of BMAs:**
 - **Type 1 BMA: area where hunters administer their own permission.** This includes BMAs that use sign-in boxes, and BMAs that do not require hunters to obtain permission. Typically, Type 1 BMAs do not limit hunter numbers or require reservations, although some parking areas have vehicle limits.
 - **Type II BMA: area where someone other than the hunter issues permission.** This includes BMAs where the landowner or an FWP staff member issues permission. Type II BMAs often require reservations and utilize pasture assignments, hunter number limits, and other hunter management systems.
- **BMA Maps:**
 - Each region has its own policy regarding distribution of maps. Some regions provide a specific number of maps per hunter per day, while other regions may only provide maps at the BMA site when the hunter receives permission. Please refer to the regional information in this guide to determine how a particular region handles map distribution.
 - For the 2011 hunting season, FWP will provide some BMA maps electronically on the FWP website at <http://fwp.mt.gov/hunting/hunterAccess/privateLand/blockman/>

Region 1

2011 Block Management Program

Region 1 is blessed with some of the finest Block Management areas in the state. We can proudly boast of nearly 770,000 acres of mountains, rivers, lakes and valleys.

Region 1 Block Management Areas consist primarily of corporate timber lands through agreements with Plum Creek Timber, Stimson Lumber and Stoltze Land & Lumber Co. Plum Creek lands make up nearly 98 percent of all our current Block Management lands and their open use policies make it easy for all sportsmen and women to use these lands. Plum Creek even has special areas set aside for hunters with disabilities.

Because of the large number of acres involved it would be very difficult to include maps with this publication. The best way to recognize Corporate Timber Lands is on the Flathead, Kootenai and Lolo National Forest Service maps. Plum Creek lands are coded on these maps by orange and pink for easy identification. Plum Creek Block Management lands are also posted at the main points of entry with signs identifying the area and explaining the regulations. Adherence to these regulations is the best way to ensure that these lands remain open for generations to come. Stoltze maps are available at the Kalispell FWP office.

Remember, Block Management lands are private lands that are open to public use. They are available to us only as long as we treat these properties with respect and follow all rules and regulations.

Some of the regulations you will need to know before you go hunting are:

- * Motorized vehicles are permitted only on open, established roads.
- * Off-road vehicle use is prohibited.
- * A bermed road is a closed road.
- * Roads with gates are closed, whether the gate is open or closed, unless posted otherwise.
- * There is a 14-day camping limit in some areas.
- * Permits are required for firewood cutting.

And as always, remember that a State Lands Recreational Use permit is required if you plan to utilize state lands for activities other than hunting, fishing or trapping.

For a copy of these regulations or directions to "disabled only" hunting areas, visit your Region 1 Fish, Wildlife & Parks office at:

490 North Meridian Road
Kalispell, Montana 59901
Phone: (406) 752-5501

OTHER OPPORTUNITIES THAT WILL BE AVAILABLE THIS YEAR ARE:

The **Bill Naegeli Ranch** is in the Little Beaver Creek area near Thompson Falls. The Naegeli ranch has opened 920 acres of good whitetail hunting to all sportsman and women on a first-come first-serve basis.

Closer to Kalispell is the **Mike Meuli Ranch** near Proctor. Mike is opening 3,000 acres to elk, deer, upland game bird and even waterfowl hunting. This property is closed the first three days of the General Big Game season.

Near Columbia Falls, **Columbia Falls Aluminum Company** (CFAC) has enrolled two separate parcels into the program. Both areas are limited access only, and permission is given at the Region 1 office in Kalispell. The South Half property is for youth hunters, and those hunters with a permit to hunt from the vehicle only. The North Half is walk-in only and is open to youth and hunters with disabilities only.

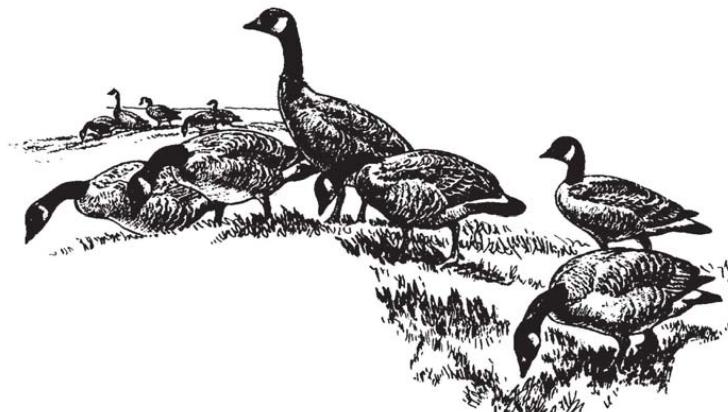

South of Eureka is the **Peters Family Trust BMA**. National Forest borders this BMA from three sides.

F.H. Stoltze Land and Lumber Company is the second largest private landowner in Northwest Montana. Stoltze provides the Block Management program with two different areas, one north of Columbia Falls and the other by Swan Lake, with a total of 11,470 acres. Stoltze allows ATV access around closed gates. For more information on Stoltze lands, please contact their lands office at 892-7005.

AVISTA lands provide recreational boating and fishing opportunities throughout the year. The areas are regulated by hunter numbers per day to provide for an enjoyable hunting experience. For more information on AVISTA's open lands use policy, or for a copy of that policy, please contact the AVISTA office at 406-847-1285, or the FWP R1 office at 752-5501.

Stimson Lumber Company near Troy offers two areas as well. Just outside of Troy is the Ruby-Brush BMA. This is a large contiguous tract of Stimson Land open for all FWP hunting seasons. Contact FWP for a copy of the area map and land use rules. Other Stimson Lumber Company lands south of Troy in the Bull River area are also open for hunting and general recreational use. Please consult FWP or Stimson for a copy of the Land Use Rules.

For more information including maps, directions and who to contact before hunting, call the Region 1 Montana Fish, Wildlife and Parks office at 406-752-5501.

E, WT/MD, B, Mtn L, WF, UGB, M, G, BH	D/E 100, 101, 102, 103, 104, 110, 120, 121, 122, 124, 132	Flathead, Kootenai, and Lolo national Forest.	Contact the RI FWP office for BMA map & regulations. For a copy of the Open Land use policy, contact RI FWP, or the Plum Creek Timber offices in Kalispell or Libby.

Clark Fork Hydro Project Lands Policy (FERC Project #2058)

Avista Utilities welcomes the responsible and appropriate use of our land for noncommercial activities such as fishing, hunting, camping, picnicking, and hiking. Avista property is privately owned, however it is open to the public in most areas.

Follow posted rules and regulations when visiting Avista lands. Individuals violating rules and regulations will be expelled from Avista lands and may receive a citation.

Please Note: Water levels are subject to change without notice.

Motor Vehicle and Road Restrictions

Avista restricts motorized use on our land to preserve important natural resources, limit the spread of noxious weeds and protect company property

- Motorized traffic is limited to designated roads.
- ATV's must be licensed; an ATV sticker is not a substitute for license.
- All state laws apply (speed limit, valid drivers' license, etc.).

Camping Rules and Regulations

Camping is allowed unless otherwise posted. Some areas have site specific rules and regulations posted. It is your responsibility to know if special rules apply.

- There is a 14 day camping limit in any 30 day period and a 30 day limit per year.
- Use only down wood for fires. Fires must be attended at all times.
- Campsites cannot be left unattended overnight.
- Pack it in, pack it out. There is no garbage service.
- Fireworks are not permitted on Avista property.
- Animals must be leashed if requested by another individual.

Commercial activity (outfitting / guiding, firewood cutting, etc.) is allowed with written permission only. Do not trespass on other private property to reach Avista land.

Welcome to Avista Utilities land.

Please call 406-847-1280 if you have questions or comments or contact MFWP Region 1 office in Kalispell at 406-752-5501.

Rocky Mountain Region Open Lands Policy

Plum Creek welcomes the responsible use of its timberlands by the public for noncommercial recreation such as hunting, fishing, and camping. Logging and forestry activities are ongoing however, and may pose a danger. Please adhere to the following rules when using Plum Creek lands.

Road Restrictions

Plum Creek often restricts the type of motorized access permitted on its lands to protect wildlife security, prevent sedimentation from logging roads, reduce the spread of noxious weeds, and protect company property. The following rules apply to Plum Creek roads:

- Plum Creek restricts road use with gates, barricades, earthen barriers, or signs. This may be a restriction on roads owned by Plum Creek or a restriction on roads that are cooperatively owned, such as a road cost-shared with the Forest Service. A cooperative road management sign identifies the intended restriction.
- A gate, whether opened or closed, with no sign is a year-round closure to all motorized vehicles.
- Road restrictions apply behind unmarked gates, even if the gate is vandalized or open.
- For a road to be open behind a gate, it must be specifically designated by a sign as open.
- An earthen barrier without a sign is considered a closure to all motorized vehicles, except snowmobiles between December 15 and April 1.
- Gates must not be blocked. Administrative, contractor or emergency traffic may need to pass through.
- All “off road” motorized vehicle use is prohibited.
- Hunting or transportation of hunters or game with administrative or commercial vehicles is prohibited behind a closure.

Camping

Camping is limited to 14 days per campsite. During this time, the campsite must not be left unattended for more than three consecutive days. Camping beyond 14 days requires relocating to a new site at least five miles from the original site. A permit is required for Exceptions and Special Use camping. Cutting trees is not permitted and a permit is required for cutting firewood.

Campers must:

- Pack out all garbage and leave the area clean.
- Be careful with fire.
- Avoid polluting with human waste. Toilets located within 300 feet of water must be self-contained.

Please note that commercial activity and woodcutting is not permitted on Plum Creek land without a permit. It is your responsibility to know whose property you are using and you should avoid trespassing on the private property of others to reach Plum Creek lands.

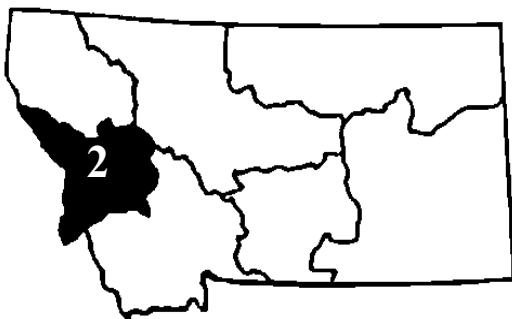

Please report violations or vandalism to Plum Creek or Montana Department of Fish, Wildlife and Parks.

Region 2

2011 Block Management Program

For the 2011 fall hunting seasons, there are approximately 584,000 acres of private and isolated public lands enrolled in FWP's Region 2 Block Management program. Most Region 2 Block Management Areas (BMAs) are in mountain valleys and foothills, with deer and elk the primary species to hunt. Over half of the Region 2 hunting districts require a special permit to hunt mule deer bucks. White-tailed deer are more prevalent than mule deer in west-central Montana and currently make up three-fourths of the deer harvest within the region. Prairie habitat and associated grain production to support pheasants, prairie grouse species and antelope are lacking in this part of the state. Limited BMA opportunities exist for waterfowl hunting along the Bitterroot and Clark Fork Rivers.

Like other regions, Region 2 has Type I and Type II BMAs. A Type I BMA allows hunters to administer their own permission to hunt, while a Type II BMA requires a hunter to obtain permission through other means. BMA hunting opportunities vary greatly with regard to methods of gaining access, opening and closing dates, vehicle travel, game retrieval, camping, presence of public lands, size, limits on hunter numbers, etc. **Therefore, it is very important you get a current year's BMA map and regulations sheet for the BMA you intend to hunt.**

The easiest way to receive free BMA maps is to visit our website at <http://fwp.mt.gov/hunting/hunterAccess/privateLand/blockman/region2/default.html>. Please be aware that all BMA maps are in color. It is recommended you print your maps from a color printer to ensure color coded restrictions and landownership is clearly displayed. Maps may also be requested by calling our Region 2 Block Management office at 406-542-5530. More specific information about Region 2 BMAs will be displayed at the Region 2 Headquarters, 3201 Spurgin Rd, Missoula, MT 59804. If requesting maps over the phone or at the Region 2 Headquarters, please keep your requests to those BMAs you desire to hunt (maximum five maps per day). Additionally, most BMAs have maps available on site in hunter registration boxes or in map dispensers. Maps are usually posted at common BMA access points.

In most instances, motorized travel on Region 2 BMAs is restricted to a few main roads, with private ranch roads and logging roads closed by gate or earthen berm. The reasons for limiting motorized access are: 1) reduce noxious weed spread, 2) minimize road damage, and 3) improve hunting quality. Travel on gated roads is typically open to foot, horse and nonmotorized bicycle; but in some instances, exceptions are made to allow hunters to drive in with vehicles to retrieve harvested game animals.

Plum Creek Timber Company (PCTC) and **The Nature Conservancy** (TNC) have once again enrolled their land into Region 2's Block Management Program. Plum Creek and TNC's private lands provide access for public hunting and other forms of year-round recreation. Prior to recreating on Plum Creek and TNC lands, pick up a 2011 map and regulations so you are aware of the current rules and regulations as well as any landownership changes that may have occurred.

Non-BMA Hunting Opportunities

The **Montana State Prison Ranch**, west of Deer Lodge in deer/elk Hunting District (HD) 212, allows hunting on about 31,000 acres. The ranch is divided into an archery-only area and a rifle area. The archery-only area requires written permission, administered by Montana Correctional Enterprises (permission processed annually from August 1 through December 15). The Prison Ranch rifle hunting area does not require permission before gaining access. Contact the Region 2 FWP Office (Missoula) or Montana Correctional Enterprises at 406-846-1320 ext. 2351 for a map, with regulations and access instructions.

The **Lee Metcalf National Wildlife Refuge** (administered by the US Fish & Wildlife Service, USFWS), located north of Stevensville in deer/elk HD 260, allows deer (archery-only) and waterfowl (from blinds only) hunting in designated areas. To request hunting information, contact the refuge by phone at 406-777-5552 or by mail at 4567 Wildfowl Lane, Stevensville, MT 59870.

The **Blackfoot Waterfowl Production Area** (USFWS) is in the upper Blackfoot Valley in deer/elk HDs 281 and 290 (archery-only). This area provides deer, elk, and waterfowl hunting opportunities on about 2,000 acres.

FWP administers numerous **Fishing Access Sites** (FASs) and **State Parks** (SPs) throughout the region. Some, in addition to providing water access to anglers and boaters, have considerable acreage with deer (archery-only) and waterfowl hunting opportunities. Maps of these areas are available from Region 2 FWP Office (Missoula) or online at <http://fwp/mt.gov> (under Fishing, see Visit a Fishing Access Site). Opportunities in HD 260 include:

- **Tucker Crossing FAS**, 250 acres
- **Bell Crossing FAS**, 65 acres
- **Kelly Island FAS**, 650 acres
- **Erskine FAS**, 425 acres (plus access to additional Forest Service property)
- **Council Groves SP**, 190 acres.
- **Tucker Crossing FAS** is the only FAS or SP within Region 2 that is open for use by hunters who drew the HD 260-30 deer B license through the June 1st special permit/license drawing.

FWP also administers **Wildlife Management Areas** (WMAs) throughout the region, each of which provides some hunting opportunities. These areas are usually labeled as WMAs or Game Ranges on Forest Service travel plan and BLM maps. Some larger WMAs include:

- **Calf Creek WMA** (HD 261, about 2,300 acres) east of Corvallis
- **Threemile WMA** (HD 204, about 6,100 acres) east of Florence
- **Blackfoot-Clearwater WMA** (HDs 282, 285 & 281; about 46,200 acres) southeast of Seeley Lake.
- **Aunt Molly WMA**, (HD 290, about 1,200 acres) near Helmsville is popular among archers in pursuit of deer (Make sure to be bear aware when using Aunt Molly, grizzly bears use this area heavily).
- **Warm Springs WMA** (HDs 213 & 215, about 4,700 acres), about 15 miles south of Deer Lodge, provides waterfowl hunting opportunities, as well as deer hunting (restricted to archery, shotgun, traditional handgun, muzzleloader and crossbow use).
- **Garrity Mountain WMA** (HD 214, about 9,500 acres) west of Anaconda.
- **Fish Creek WMA** (HD 202, 203 and 201, about 41,000 acres) was purchased by FWP in 2010 and is about 10 miles west of Alberton.
- **Spotted Dog WMA** (HD 215, about 38,000 acres) was purchased by FWP in 2010 and is about 4 miles northeast of Deer Lodge.

Maps of each WMA are available from the Region 2 FWP Office (Missoula).

To obtain maps and permission information through the mail, please call 406-542-5530.

Region 3 2011 Block Management Program

Regional Block Management Program

The Block Management Program in Region 3 (300 series districts) maintains access and hunting opportunity on private lands throughout southwest Montana. Under this program, hunters are granted free access to 85 Block Management Areas (BMA's) owned by 114 landowners, which currently encompass over 640,000 acres of private and public lands in Southwest Montana.

There are two general types of BMA's:

Type I BMA's

Type I BMA's are areas where hunters administer their own permission. This includes areas that use sign-in boxes, places that do not require hunters to obtain specific permission, or places where some other method of self-administered permission is used. Typically, Type I BMA's have no limits on the number of hunters using the area, although certain parking areas may impose limits on the total numbers of vehicles per area.

Type II BMA's

Type II BMA's are areas where someone other than the hunter administers permission. This includes areas where landowners issue permission slips, department staff administers permission, or some other permission method is used. Reservations, pasture assignments, limits on hunter numbers, and other hunter management methods are often used on Type II BMA's. Most Region 3 BMA's are open to non-motorized travel (foot or horseback) with only a few main roads open to motorized vehicles. Reasons for limiting vehicle access in BMA's include: 1) improving the quality of hunting, 2) weed control, and 3) preventing road damage.

BMA Maps

Area BMA maps, including permission information and area rules, can be obtained by visiting our self-help stations at the regional office in Bozeman or at area offices in Butte or Helena. Information is also available through voice mail by calling (406) 994-3288 or by e-mail request at fwp3bmp@mt.gov. We ask that you limit your map requests to five (5) per phone call, office visit or e-mail to maintain the ability to fill requests in a timely fashion and for fairness. Some individual BMA maps and permission information will be available through our website at fwp.mt.gov/hunting/hunterAccess/privateLand/blockman. Although FWP provides maps for individual BMA's, it may be helpful to purchase the BLM or Forest map that is listed in the BMA informational chart.

BMA Rules

As you enjoy the hunting access provided by this program, please be sure to obey the rules these landowners have requested. This is a voluntary program designed to benefit you. Enjoy this opportunity and respect landowner rights.

Sign-In Boxes: It is important that all hunters register at access points on the BMA's that use sign-in rosters **before** hunting. This provides important hunter use information and serves as your permission slip to be on the property to hunt. Be sure to fill out all information completely and accurately.

Current Information

Map boundaries, rules or permission information may change from year to year. Be sure to obtain current maps and permission information every year.

Reservations

Reservations are available or required on some BMA's (see chart). Failure to show up for a reserved slot on a BMA denies other hunters opportunity. Please make every effort to cancel reservations if you are aware you will not be able to make your arranged time. Be aware that on some BMA's, failure to show without prior notice is grounds for exclusion from further hunting opportunities on the area. Making reservations on multiple BMA's at the same time is grounds for exclusion from hunting any BMA.

Weeds

Noxious weeds are becoming a serious concern to landowners. Please do your part to limit the spread of weeds. Try to keep equipment clean and avoid driving, parking or walking through weeds.

Other Hunting Opportunities in Region 3

In Region 3, we recommend that you consider all access options in planning your hunts, utilizing BMA's when and where they fit into your plans. Southwest Montana has abundant public land (i.e. BLM, U.S. Forest Service & State Trust Lands) with extensive hunting opportunity. Travel plan maps depicting these lands and public accesses can be obtained at BLM, U.S. Forest Service, and FWP Offices throughout the region. Locations of offices and phone numbers are included in this booklet under the public lands access section.

REGION 3 FISH, WILDLIFE AND PARKS OFFICES

Bozeman Regional Headquarters

1400 South 19th

Some individual BMA maps and permission information will be available through our website at fwp.mt.gov/hunting/hunterAccess/privateLand/blockman

OTHER ACCESS OPPORTUNITIES

Block Management and Public Lands

In many cases, enrollment of deeded ground into block management provides access to otherwise inaccessible tracts of state or federal land or blocks together large tracts of public and private land. Each block management area (BMA) has rules unique to that BMA. Recreationists should become familiar with the individual BMA ranch rules **prior** to actually hunting on the BMA. As a general rule, BMA restrictions do not apply to legally-accessible tracts of public land adjacent to, or contained within, the BMA boundaries. However, in some cases, legally-accessible public lands ARE formally enrolled, with BMA restrictions imposed for resource or hunter management reasons. **Contact regional FWP staff to verify rules for accessible public lands associated with BMAs.**

Streams and Access

Some BMAs have streams within their boundaries, so it is important to know and understand Montana's Stream Access Law. Under this statute, rivers and streams capable of recreational use may be used by the public within the **ordinary high water marks**. Although this law gives recreationists the right to pursue water-based activities within the high water marks of rivers and streams, it **does not give recreationists the right to enter private lands bordering those streams or to cross private lands to gain access to streams.** Islands may or may not be public lands. Before hunting on islands, always verify ownership. Check with county offices or FWP regional offices to confirm land ownership.

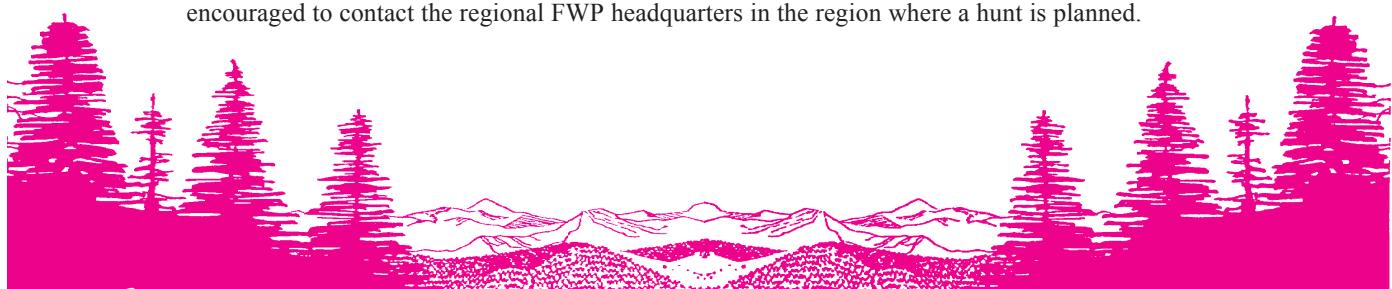

Other FWP Hunting Access Opportunities

In addition to the Block Management Program, other FWP programs may provide hunting access opportunities.

These include:

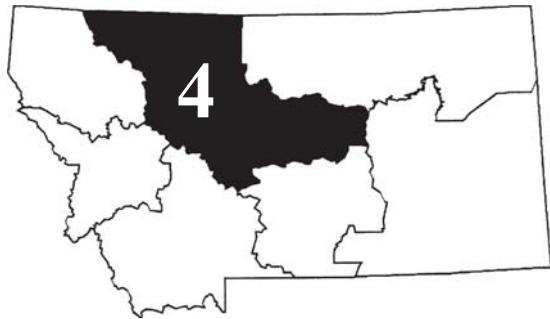

- 1) Public Land Access Projects - focus on public access to state and federal lands;
- 2) Special Access Projects - regional species-specific projects;
- 3) Habitat Montana - focuses on habitat protection through conservation easement; may also include limited public access provisions;
- 4) Upland Game Bird Habitat and Pheasant Release Program - long-term upland bird habitat projects; statewide listing available September 1;
- 5) Wildlife Management Areas and Fishing Access Sites - FWP-owned lands which may provide public hunting access opportunities;

While these public hunting access opportunities may or may not be managed under the auspices of the Block Management Program, people interested in learning more about specific opportunities are encouraged to contact the regional FWP headquarters in the region where a hunt is planned.

ASK FIRST!!!

to hunt and fish on private land...

Region 4 2011 Block Management Program

This section summarizes the available Region 4 (R4) Block Management Areas (BMA's) for the 2011 hunting season. The information contained in this table is only valid for 2011. **Valid and current BMA maps & guides are free of charge to the public and only available through FWP or the BMA /landowner.** Any information obtained outside these two channels, such as 3rd party vendors and various websites, are not valid sources of dissemination. Hunters will be held accountable for any violations of BMA rules due to faulty materials obtained from sources outside official, prescribed channels. Hunters are limited to 5 maps per hunter per day.

The requirements for hunters to gain access to R4 BMA's, and the rules you must abide by, vary for each BMA. Access information and rules for each BMA are listed on the back of each BMA's map. Before accessing any BMA in R4, a hunter is responsible for obtaining and understanding that BMA's map & rules. Some BMA maps may be used year after year unless changes to the BMA or rules have occurred. In the following table is a column which indicates whether or not a previous year's map is still valid. If a new map is required, the chart will indicate this by listing the current year; otherwise it may list a map from a previous year as still valid. **Region 4 BMA's are only open from 1 Sep - 31 Dec.** Outside this timeframe, the property is not a BMA and no information or materials will be provided.

BMA MAPS

Hunters may request R4 BMA maps via fax, phone, letter, email or in person.

Phone - (406) 454- 5862; fax - 761-8477; Mail / in person – FWP/ R4 BMP 4600 Giant Springs Rd. Great Falls, MT 59405. E-mail - (fwpr4bmp@mt.gov). The BMA maps will not be faxed or electronically transmitted. Please allow enough advance time to order & receive maps via mail. Maps can also be mailed to your lodging facility if an address is provided. Hunters are limited to 5 maps per hunter per day unless obtained electronically (see paragraph below).

Some BMA maps are available to download and print from the FWP website. As all BMA maps are in color, it is highly recommended that anyone printing maps from the website, only use a color printer. Identifying color-coded restrictions and colorized landownership within each map is the hunter's responsibility. You may still be cited for any transgressions resulting from the use of a black & white map. Some BMA maps are not available through the website. If you cannot find a particular map listed in the table on the website then please contact the R4 office to request that map.

R4 FWP Conservation Easement Hunting Opportunities

In addition to BMA maps, Region 4 maintains maps with instructions on accessing FWP Conservation Easements. FWP Conservation Easements differ from BMAs in that the Department has purchased a legal interest in the property, whereas BMAs are properties where the landowner and FWP have entered into a contractual hunting access agreement. Both BMAs and FWP Conservation Easement properties remain private property. Hunters will not find information in this guide on specific FWP Conservation Easements, as they are not BMA's and do not function in the same manner. Information for accessing R4 Conservation Easements may be obtained by contacting the R4 FWP Headquarters Office in Great Falls at (406) 454-5840, or using any of the methods listed for requesting BMA maps.

Remember, hunting on private lands, including BMA's and FWP Conservation Easements, is a PRIVILEGE, NOT A RIGHT. You are allowed there through the courtesy and good will of that landowner. Be safe, courteous, and report any violations @ **1-800-tip-mont**.

Region 5 Block Management Program

About Region Five's Hunting Access Program

In 2011, there are 153 Block Management Areas (BMAs) that will provide access to 745,000 acres of private, state, and federal lands. Like others, Region 5 (R5) has Type I and Type II BMAs (discussed near the front of this Guide), which give hunters flexibility in gaining permission. About one-third are Type I and two-thirds are Type II in R5. In general, Type I BMAs allow the hunter to administer their own permission while Type II BMAs require getting permission from the landowner or a representative. Regardless of permission type, please keep in mind that BMAs are comprised wholly or partially of private lands. As a hunter you have the privilege to access these lands and your behavior will play an important role in the future of Montana's hunting heritage. Good luck and be safe!

How to use this Guide for R5

Included in this Guide is a regional map showing the general location, identification number, and permission type for each BMA as well as deer and elk hunting district boundaries. There is also an index that gives general information for each BMA, which is identified by its number. This information will help you locate the hunting opportunities you wish to pursue. The following outlines the procedure to request detailed rules/maps of particular BMAs:

1. Refer to the map and index to identify BMAs you are interested in hunting. Be aware that the hunting districts shown on the map in this guide are for deer/elk. Districts for other species are not necessarily numbered the same.
2. Using the BMA map number, obtain a copy of the rules/map from Fish, Wildlife & Parks. Most individual BMA rules/maps will be available for viewing/printing on the FWP website, which is fwp.mt.gov. Maps may also be requested in person at the FWP R5 Headquarters at 2300 Lake Elmo Drive in Billings, by e-mailing fwpr5bamp@mt.gov or by calling (406) 247-2940. If you need more specific information about a BMA before requesting a map, a complete set of R5 BMA maps will be available for viewing at the headquarters.
3. Hunters may receive a maximum of ***five maps per day*** if requested from FWP. Please help us reduce administrative costs by only requesting the maps of BMAs you intend to visit. Due to time constraints, BMA maps will not be faxed. Specific BMA contact information such as phone numbers will only be available on rules/maps. Please do not ask for this information over the phone as you are expected to have the rules/map in-hand before arranging permission.

How to obtain permission to hunt

Each BMA rules/map lists the method and steps for obtaining permission to hunt on that particular area. Please abide by times for calling landowners, if listed. If times are not listed, please be considerate and call at reasonable hours. Landowners are not required to and may not return phone calls. While obtaining permission to hunt BMAs within R5, please keep the following Administrative Rules/policies in mind:

- **Use only current year BMA rules/maps.** R5 produces new rules/maps each year to address rule, boundary, or permission method changes. Also, there is some turnover in BMAs from year to year so a previous BMA may no longer be enrolled.
- **Reservations. By Administrative Rule, reservations may not be made before August 15th.** If a BMA takes reservations, a hunter may only have one reservation on that BMA at any one time. After the dates of the reservation pass, a hunter may make another reservation to hunt that BMA. Hunters may have reservations on more than one BMA as long as they are not for the same hunting dates. Reservations can be up to three days, but must be for consecutive days. Individuals from the same hunting party may not make reservations for consecutive three-day blocks in an attempt to book more than three days for their party. Hunters may hunt more than one BMA in a day, but are prohibited from making reservations to hunt on more than one limited-hunter BMA per day.
- **Cancellations.** If you make advance reservations on a BMA and are unable to hunt, please inform the landowner of this as soon as possible. Also inform them if you are successful early in your hunt and won't be hunting all the days you have permission for. Failure to do so may result in the loss of hunting privileges on that BMA for the remainder of the hunting season. Be courteous and give others an opportunity to hunt.

Other hunting opportunities in south-central Montana

About 10% of the land base in FWP Region 5 is enrolled in the Block Management Program. That leaves a great deal of land and associated hunting opportunities to explore. Hunters are encouraged to look at these opportunities and not limit their days afield only to BMAs.

- **Private lands not enrolled in Block Management (69%).** Remember to "Ask First" before hunting private lands and abide by landowners' instructions.
- **US Forest Service (11%).** Region 5 has portions of three National Forests (Custer, Gallatin, and Lewis & Clark) within its boundaries. Nearly all of these lands are open to public hunting.
- **Bureau of Land Management (5%).** Most BLM lands are open to hunting and are scattered throughout Region 5. The biggest blocks can be found in the northeast and southern portions of the Region.
- **State School Trust (DNRC) (5%).** DNRC lands (school sections) are fairly evenly scattered throughout our Region and usually in parcels of 640 acres or less. Hunting is allowed on most lands and is subject to DNRC rules. Hunters should read and be familiar with these rules before hunting.
- **Other (<1%).** US Fish and Wildlife Service and National Park Service make up the remainder of the land base in FWP Region 5. Hunting is allowed on some of these lands and is subject to the regulating Agency's rules. Please contact them before hunting.

HUNTERS!

Are YOU an *Endangered Species?*

Noxious weeds
threaten
Montana's hunting heritage!!

WHAT CAN YOU DO?

- ♦ Learn to identify noxious weeds;
- ♦ Avoid parking, walking or driving in weeds;
- ♦ Wash vehicles before and after hunting trips;
- ♦ Keep clothing, equipment & animals weed-free.

Bureau of Land Management Offices

For a current index of recreation maps contact BLM's state office in Billings.

Up-to-date 1:100,000 Surface Minerals Management Quadrangle Maps are also available from the state office for \$4.00 each, as is a current index of these maps. Additional information is available on the BLM website at www.mt.blm.gov.

If you want to know more about outdoor recreation in Montana, contact any of these Bureau of Land Management Offices:

Forest Visitor Series Maps area available for each National Forest in Montana.
Each map covers all or part of one National Forest. Some of the Forests are divided into several maps. The scale is 1/2 inch per mile. The maps show roads, trails, streams, lakes, recreation sites, and land ownership.

Forest Visitor Series Maps area available for each National Forest in Montana. Each map covers all or part of one National Forest. Some of the Forests are divided into several maps. The maps show roads, trails, streams, lakes, recreation sites, and land ownership. Additional information is available on the web <http://www.fs.fed.us/r1/>

To order your Visitor Series Maps, visit the USFS web page at
<http://www.fs.fed.us/recreation/nationalforeststore>

Maps also can be purchased from any of the individual Forest Service offices listed.

Make your checks payable to "USDA-Forest Service" for amount of purchase only.
Maps will be sent after payment is made.

Individual maps of existing wilderness and primitive areas are also available for a charge. General information on each wilderness/primitive area is available at no cost and can be sent to you upon request. The Forest Service also has numerous brochures on campgrounds, recreation areas and miscellaneous subjects available free upon request. For more information call (406) 329-3511.
